## CHRISTMAS MESSAGE ✨ 2025

### *Greetings Sorors,*

The Christmas season conjures feelings of Hope, Peace, Joy, and Love. The four virtues highlighted during the Advent season help us focus on the reason for the season: Jesus Christ. Christ was born to be the light of the world, to bring peace and love to the citizens.

Today, we look forward to this season for many of the same reasons. The hope for a better future and life for our families. Peace within our families, communities, and the world. Peace is still something that we desire. We must pray and stay focused on the Lord; He will see us through all of the turmoil.

Let the joy of the season guide you. We look forward to December 25th as excited, bright-eyed children, to the pleasure of opening gift boxes, and to sharing with family. Our love shows through in our interactions with others: the smiles we share, the warm greetings, and the hugs we give. During this season, we are kinder to one another. Let's try to extend the season and continue to be kind well into the new year.

As we look forward to the new year, we hope for a brighter future and prosperity. May 2026 bring good news, continued good Health, and happiness to you and your families. Be intentional in doing the right thing. Be joyful knowing that God's light shines in us!

*Happy Holidays! Merry Christmas! And Happy New Year!*
